

Absea Product datasheet

Product number	0611701E07
Antibody specificity	Human chorionic gonadotropin beta (HCG β)
Species reactivity	Human
UniProt/GenelD	P0DN86/1082
Clone number	KT151
Immunogen	Native human chorionic gonadotropin beta
Antibody isotype	Mouse IgG1
Antibody form	Intact antibody
Concentration	1 mg/ml in PBS containing 0.09% sodium azide as a preservative
Cross-reactivity	Not tested
Applications	ELISA, capture antibody for sandwich ELISA.

These are applications that have been tested. It does not mean that the antibody cannot be used for other applications

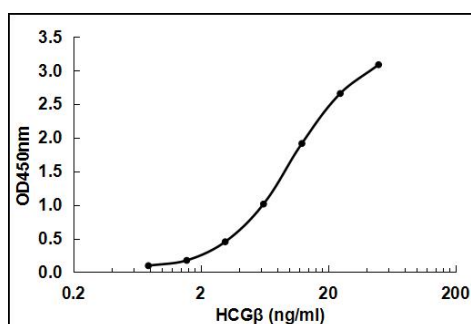

Figure 1. Sandwich ELISA using KT151 as capture antibody and HRP conjugated KT152 as detection antibody

Suggested working concentrations	ELISA: 1 μ g/ml Sandwich ELISA: 5 μ g/ml Optimal concentrations should be determined by the end user
Preparation	IgG is purified through a Protein A column
Store	4 °C for 1 month, -20 °C or -80 °C for long term. Avoid repeated freeze/thaw cycles
Safety information	This product contains sodium azide which is hazardous
